SUMMARY

Software Developer with over **3 years of experience** in building end-to-end web applications using modern development practices, version control and agile methodologies.

Focused on delivering high-impact solutions for complex technical challenges, with a strong emphasis on scalable architecture and performance optimization through cutting edge technologies.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer - Fetchly Labs

Jan 2023 - Present

RESPONSIBILITIES

- Develop and enhance reusable React components using hooks to ensure efficient management.
- Implement RESTful API with Django REST, defining endpoints and request parameters.
- Integrate frontend app with APIs and third-party services, ensuring error handling and seamless data flow.
- Translate Figma designs into pixel-perfect, responsive UI components using styling frameworks.

KEY ACCOMPLISHMENTS

- Spearheaded an app product, collaborating cross-functionally with clients, developers, UI/UX designers, QA engineers and project managers, ensuring tasks were completed within the established timeframe.
- Developed and deployed production-ready features for a high-traffic application, improving data update by optimizing SQL queries and automating operations with shell scripts.
- Enhanced web performance by implementing advanced optimization techniques (lazy loading, asset minification and caching strategies), cutting page load times by 70%.

EDUCATION

Software Development Associate's Degree - IFTS N°29

Mar 2024 - Present

Advanced Testing - Universidad Tecnológica Nacional

Oct 2023 - Nov 2023

COURSES

Cloud Developing - Amazon Web Services

2026

Cloud Foundations - Amazon Web Services

2025

Full Stack Python Developer - Codo a Codo 4.0

2023

React Specialization - Codo a Codo 4.0

2022

Full Stack JavaScript Developer - Codo a Codo 4.0

2022

Web Development - Coderhouse

2021

SKILLS

Programming Languages: JavaScript, Python, HTML, CSS, SQL

Frameworks & Libraries: React, Redux, Query, Tailwind, Bootstrap, NodeJS, Express, Django REST

Databases: PostgreSQL, MySQL, MongoDB, Firebase

Deployment: Git, GitHub, Vercel, Heroku, Railway, Netlify

LANGUAGES

English: C2 Proficient

Spanish: Native
